

EPS Product Overview

Cold Forming

Single Die Design
Multiple Die Design
Progressive Machine
Extrusions

Machining

Pointing
Shaving
Drilling / Tapping
Trimming
Centerless Grinding
Shank Slotting
Head Slotting
Broaching
Swaging
Bending
Burnishing
Electro Polishing
Mechanical Polishing
Machining
Roll Threading
Thread Forming
Patching
Plastic Retention
Head Painting
Poly Bagging
Custom Packaging
Light Assembly

Materials

Aluminum
Brass
Copper
High Carbon Steel
Low Carbon Steel
Silicon Bronze
Stainless Steel
Alloy Steel
Exotic Metals

Finishes

Zinc
Black Oxide
Zinc Phosphate
Organic
Powder Metal
Zinc Nickel
Zinc Iron
Mechanical Zinc
Tin Plating
ROHS Compliant
Exotic Finishes
Everlube

Sealants / Adhesive-

Loctite
Fluorocarbons
Teflon
Epoxy

Diameter

7/64 to 1 3/8 inch
3mm to 35mm metric

Length

7 inches
177 mm metric

Testing

Plating Thickness
Internal/External Go/No-Go
Tri-Micrometers
Pitch Micrometers
50X Comparators – 14"
Floor Comparator
Hydrogen Embrittlement
Drive-to-Strips
Tensile & Yield Testing
Micro Structure Testing
Salt Spray Testing and Certification
Lot Control
PPAP's, FEMA's, 8-D's
Gage R & R
Approval Drawings
SPC on Critical Dimensions
Tukon Hardness Testing
Special Gages for Production and Final Inspection

Sorting

Laser
Camera
Eddy Current
Optical

Additional Services

Heat Treating
Plating
Induction Hardening

Production Volume

Prototype to Large Scale
Production Volume Run

Typical Lead Times

8 to 10 weeks
Rush Services Available

1. Hinge Systems - Doors

2. Fuel Systems - Engine

3. Bushings - Anti-Vibration

4. Reinforcement - Door Panels

5. Interior Pins - Headrest

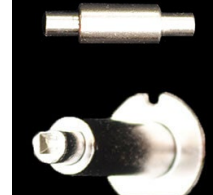

6. Small Motor - Wiper Systems

7. Track Systems - Seating

8. Interior Pins - Center Console

9. Mechanisms - Seating

10. Exhaust Systems

11. Chassis

12. Locking Pins - Armrest Assembly

13. Gas Strut - Lift Systems

14. Shaft - Braking
